**The benefit percentage applies to the schedule of maximum allowable charges. Maximum allowable charges are limitations on billed charges in the geographic area in which the expenses are incurred.

Your dental plan provides that where two or more professionally acceptable dental treatments for a dental condition exist, your plan bases reimbursement on the least costly treatment alternative. If you and your dentist have agreed on a treatment which is more costly than the treatment upon which the plan benefit is based, your actual out-of-pocket expense will be: the procedure charge for the treatment upon which the plan benefit is based, plus the full difference in cost between the fee for the service actually rendered and the fee for the service upon which the plan benefit is based..
