

Electronic ID Card

With our electronic ID cards, your insurance card is as close as your phone!

You live in a digital world. Smartphones have replaced wallets for many people, so it's logical to make insurance ID cards digital, too. Once you've downloaded it, your insurance card is as close as your phone! Not only does this make it easy to display your card to a provider, our mobile app also makes it easy to email or fax it to a provider.

Once your insurance coverage is established, you'll receive an email letting you know your electronic ID card is ready to be downloaded from your **My Account** portal on uhcsr.com.

Create your **My Account** login:

Go to www.uhcsr.com/CreateAccount and follow the prompts to create your login.

Access your ID Card via **My Account**:

Go to your **My Account** at www.uhcsr.com/MyAccount. Once you've logged in, click the ID Card button on the right. With the '**View or Print ID Card**' option, you can open a PDF of your card for printing or displaying. Or you can request a permanent card be mailed out to you.

Access your ID Card via our **Mobile App**:

The UHCSR Mobile App is available on both [GooglePlay](https://play.google.com/store/apps/details?id=com.uhcsr) and the [AppStore](https://apps.apple.com/us/app/uhs/id123456789). Once you've downloaded it to your mobile device, click on '**My ID Card**' to view it as well as fax or email your card to a provider.
