Regular dental checkups are crucial for maintaining good overall health. By addressing small dental issues early on, you can prevent them from escalating and potentially affecting your overall well-being.

- Two cleanings in a 12-month period
- Annual oral cancer screenings for adults

Additional wellness services

- Enhanced prenatal benefits
- Robust coverage for oral cancer screenings

How your plan works

Cost-sharing

When having restorative services, you and your plan may share the costs of services after you pay your deductible. This is known as coinsurance, the percentage of costs you pay for covered dental care after you've paid your deductible.

Pre-treatment estimates

If you're planning to have a procedure that costs more than \$500, ask your dentist to send UnitedHealthcare the X-rays and notes about your condition. We'll review the treatment to make sure it's clinically appropriate. After review, you and your dentist will get an estimate of what the plan will pay and what your costs will be.

Annual limit

Your plan pays for services up to a set dollar amount, called an annual limit. Preventive services, including routine dental checkups, may count toward your annual limit. If you reach the limit, you'll need to pay the entire cost of any additional dental care you receive that year. Find your annual limit on myuhc.com or call the number on your dental ID card.

Deductible

For services other than preventive care, you may have to pay a deductible - a set dollar amount - before your coverage kicks in.
