

Open your eyes to great vision care

Vision care is tied to wellness - it can be an integral indicator of overall health. Eye exams can play a vital role in detecting various illnesses, including diabetes, high blood pressure, autoimmune diseases, and even certain types of cancers. By prioritizing regular eye exams, individuals can proactively monitor their health and potentially identify these conditions at an early stage.¹

Access your vision plan easily

UHC Vision provides additional coverage that may help save you money.

My UHC Vision benefits

- Access to a large network of eye-health providers
- Integrated services that check for serious medical conditions
- Freedom to choose treatment options and eye wear

Customizable provider network

- Network includes private practices and retail providers
- Extends to more than 100,000 access points² across the country

Locate a network vision provider

To search for a provider, get door-to-door directions, print your vision ID card, find answers to questions and more, visit myuhcvision.com or call the number listed on your vision ID card.

Allowances and discounts help reduce out-of-pocket costs

Flexible Frame Coverage³

A frame allowance fully covers many popular frames. For frames that cost more than the allowance, a discount may be applied to the overage, further reducing out-of-pocket costs.

Popular Lens Options

High-index lenses, anti-reflective coatings and more are offered at a discount. Standard scratch resistant coating is included at no charge.

Broad Contact Lens Benefits³

Fitting and evaluation fees for many popular brands of disposable and planned replacement contacts are covered in full after applicable copayments. Up to two follow-up visits are also covered. For contact lenses not covered in our plan, students can apply their allowance to the purchase of the contacts of their choice. Savings are also available throughout our online discount ordering program.
